LASER ENGRAVING MACHINE

LS100

THE FLEXIBLE ENGRAVING SOLUTION FOR A QUICK RETURN ON INVESTMENT

■ A compact, versatile and rugged laser engraver, perfect for the first time buyer and experienced laser user.

■ With easy to understand functions, the ergonomically designed LCD control panel enhances your efficiency and productivity.

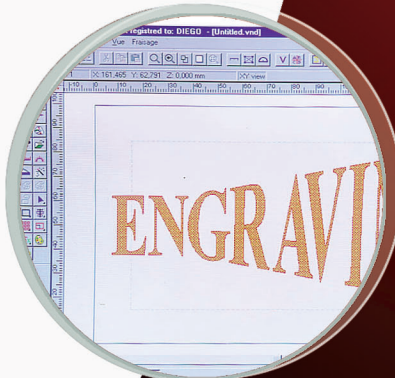

■ Fully equipped with features such as air assist, auto-focus and a red aiming beam which allows for quick set-up for a variety of laser applications.

■ Optional accessories like a cylindrical attachment, vector cutting table, several exhaust options and integrated air compressor provide the tools to satisfy your customers' requirements and expand your business.

■ The LaserStyle software package makes job creation easier than ever. The user friendly software allows parameters to be saved with the job, and the advanced functions provide extended capabilities. (Bar codes, matrix function, picture and rubber stamp wizards, etc.)

IDEAL FOR:

- Marking, engraving and cutting a wide variety of materials such as plastic, wood, acrylic, metal and glass.
- Rubber stamps
